P.T.O.

"I ADMIT THAT THE BURIAL OF BODIES POSES A PROBLEM"
Lord Bathurst on Civil Defence, Reynold's News, April 15th, 1962.

**"WE HAVE DECIDED NOT TO DEFEND THE WHOLE COUNTRY
BUT ONLY OUR BOMBER BASES"**
Minister of "Defence," 1957.

In other words, in the next war, all, or most of us, are going to die.

**SO WHAT ARE THE BRITISH AND AMERICAN GOVERNMENTS
DOING to stop the next war?**

They are refusing a nuclear test ban, even though only the smallest underground tests can go undetected. They are having nuclear tests in the atmosphere, even though radioactive fallout causes death through cancer and leukaemia and will cause diseased babies to be born for generations. They are spending more than ever on "Defence". Britain will spend £1,721,000,000 while thousands at home live in slums and millions abroad starve.

**OUR GOVERNMENTS ARE DOING WORSE THAN NOTHING
WHAT ABOUT THE RUSSIANS?** The only reason they might want to destroy us is because we're a threat to them. Otherwise, even supposing they do want to make us all Communists or exploit us, we have to be alive for them to do it.

POLARIS IS A CITY-KILLER

It is completely controlled by the Americans. If a war starts while it's here, Glasgow will be destroyed within an hour; and, for some reason known only to the men in power, so will Leningrad.

THE ORDINARY MEN AND WOMEN OF BRITAIN must oppose this terrible weapon and the American domination of our foreign policy. When we are free from America and not a threat to Russia, Britain can play a great part in negotiating disarmament, and the fact that it was the people who made the change will add tremendous strength to those who press for peace in Europe, Russia and America.

COMMITTEE OF 100 MEMBERS are engineers, dockers, teachers, typists. We believe non-violent direct action has helped to change the feeling in the country and can eventually (including strike action) change the Government.

DIRECT ACTION breaks through the deliberate silence of the press, confronts the authorities with opposition instead of just telling them about it, and makes the people realise the power they have when they act together and in large numbers.

TWENTY PER CENT said in a recent poll, that they wanted Britain to stop being a nuclear power. If they all came out at once and had continual mass demonstrations no Government could ignore them.

Do you agree with our aims? Will you help us block Ardnadam Pier? Send us your address? Send us money?

ONLY THE PEOPLE CAN TAKE BRITAIN OUT OF THE COLD WAR
